

TERM 2 LEAP Newsletter

ENGLISH

This term all students will learn to read, view and comprehend an informative text and create an informative text to report on a topic of interest. From Prep to Year 6 students will be learning about informative texts. The progression through the year levels transforms from *learning to read* to *reading to learn*.

MATHS

The concepts that will be covered for Mathematics in Term 2 are Number, Measurement, Algebra and Time. Some of the tasks are listed below.

Students in Years 1 and 2 will be learning to use a calendar and read an analog clock. Students in years 3 and 4 will be learning to make estimates and solve problems. Finally, students in years 5 and 6 will be learning to read and understand timetables.
